Summary

Seeking to work in User Experience design owing to my role as a fullstack app/web developer alongside my studies and creating android apps using Java and websites in React.

Hybrid technical and creative background lends itself to UX development as I am adept in designing elegant user interfaces with attention to design principles including integration into a real-world application.

Part-time work as a model (fashion, supporting artist: photo and film) has also taught me how to correspond with clients to fulfil their requirements and I have learned to cope in high pressure/fast-paced environments where time-to-market is a crucial factor.

Skills

- Java, JavaScript and Python
- User Interface Design
- Web and App Development
- Adobe Suite
- Languages (fluency in English, German and Portuguese)

Work Experience

Web/App Developer at yvySolutions (part-time) | May 2017 - present

Design and Java development of a fully functioning android app. Front-to-back skills maximising the user experience (UI specialist) but also writing and testing back-end code.

University of Surrey (placement) | July 2014

Writing a Python script to track the users' face using a web-cam to draw a red frame over the detected faces in real-time.

Qualifications

Applied Media Aesthetics
Data Modelling
Design Practise
Design for Mobile
Experimental Futures
Marketing and Professional Development
Mobile Web Development
Mobile Web Application Project
Server-side Web Development

Guildford County School | A-Level and GCSE

A-Level

German **B**
Physics **B**
Economics **C**
Mathematics **C**

GCSE

History **A**
German **A**
Computing **A**
Business Studies **B**

Interest & Activities

Part-time Modelling (2017-Present)

- Marketing skills: Marketing myself and the client that I am working for.
- Communication skills: Speaking with clients and working as a part of a team within a film/photo crew.

Secretary of the Brunel Conservative Society (May 2018 - Present)

- Planning and Communication skills: Successfully organising events with senior and high-profile politicians.
- Presentation skills: Participating in student union assemblies and presenting my arguments to fellow students.

Ungana Academy - Nakuru, Kenya (2015)

- Team skills: Bartering and communicating with Swahili speaking locals and working together to build a new classroom for Ungana Academy.
- Planning: Setting micro-goals and a daily quota to ensure the project's completion within 10 days.
